

**Partnering with Illinois Hospitals to Effectively Deliver Patient-Centered, High-Quality Surgical Care**

## OUR VISION

To facilitate hospitals working together to improve the quality of surgical care in Illinois.

## OUR APPROACH

ISQIC aims to improve the quality of care statewide for surgical patients. It provides members novel strategies and resources to support effective quality improvement locally through guided implementation and customized toolkits, mentoring, sharing of best practices, training and leadership engagement opportunities, and semiannual meetings.

## OUR COLLABORATIVE

Started in 2014, with members across the state of Illinois representing 50+ hospitals that include major trauma and research centers and smaller community hospitals.

## COMPONENTS TO BUILD QUALITY IMPROVEMENT SUPPORT AMONG ISQIC MEMBERS INCLUDE:

### GUIDED IMPLEMENTATION

- Surgeon Mentor
- Process Improvement Coach
- Site Visits

### EDUCATION

- Formal QI/PI training
- Leadership Engagement Plan
- Semiannual Collaborative Meetings

### COMPARATIVE REPORTS

- Hospital and provider-level risk-adjusted comparative data

### NETWORKING

- Opportunities for sharing advice and experiences
- Webinars for local quality teams
